

Eczema resources from the CEBD

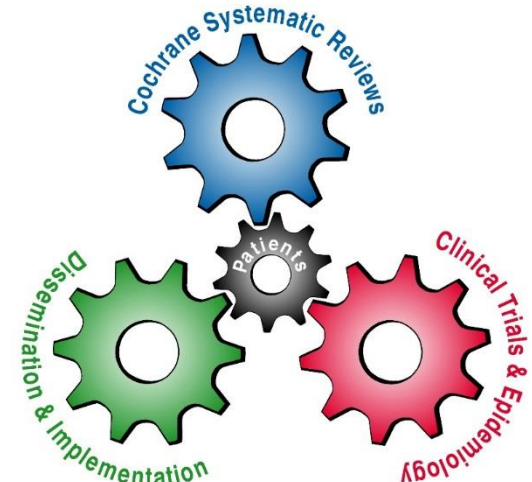

Dr Douglas Grindlay

Information Specialist

Centre of Evidence Based Dermatology (CEBD)

Aim of talk

- To introduce eczema resources from the Centre of Evidence Based Dermatology (CEBD)
- To highlight CEBD Evidence Updates

What have the Romans ever done for us?

ALL RIGHT, BUT APART FROM

THE SANITATION,
THE MEDICINE,
EDUCATION, WINE,
PUBLIC ORDER,
IRRIGATION, ROADS,
THE FRESH-WATER SYSTEM,
AND PUBLIC HEALTH,

WHAT HAVE THE ROMANS EVER DONE FOR US?

What have the CEBD ever done for you?

Scoping systematic review of treatments for atopic eczema

- Published by NIHR in 2016
- Update of 2000 HTA systematic review *Treatments for Atopic Eczema*

<http://www.journalslibrary.nihr.ac.uk/pgfar/volume-4/issue-7#abstract>

Scoping systematic review of treatments for atopic eczema

- Clear evidence that twice weekly anti-inflammatory treatment maintains disease remission
- Further research needed on optimum use of emollients, bathing frequency, wash products, allergy testing & antiseptic treatments
- Poor design of trials and reporting problems

Global Resource for Eczema Trials

GREAT database

- Summary details of **RCTs** on eczema ($n=741$), plus systematic reviews
- Based on comprehensive searches
- Searchable, or browse by treatment

Global Resource for Eczema Trials

GREAT database
